LEE JOHNSON CHARGED IN MILANO SHOOTING

Lee Johnson, of Cameron, was charged in two cases Thursday in connection with a shooting at the Oasis, a tavern near the Burlington county line on Highway 36, Wednesday night.

County Attorney Ed. Gunn said that Johnson and George Richard Stamford fought in the dance hall at the Oasis Inn, operated by W. Hargrove, on Wednesday night, August 21 and that Johnson drew a gun and two or more persons were trying to disarm him. The gun was discharged, shooting a hole in the roof of the building. The fight was stopped by Mr. Hargrove, said the county attorney, and Stamford left and Johnson went out of the building with a gun in his hand looking for Stamford.

As Johnson began looking for Stamford, according to the County Attorney, he saw a couple sitting in a car and fired. He thought the man to be Stamford but instead it was Dick Baggett and his campanion, Miss Thelma Heath. The bullet struck Baggett in the upper shoulder and produced a flesh wound and the same bullet struck Miss Heath in the side of the forehead. Both were brought to a hospital in Cameron but neither were seriously injured.

Two cases were filed against Johnson, one for unlawfully carrying a pistol and the other for assault with intent to murder and was admitted to bail in the sum of $500 each.

The arrival of Johnnie Lee Phipps has been announced by his parents, Mr. and Mrs. Richard Phipps of Cameron. Johnnie Lee weighed seven pounds and six ounces upon his arrival at Cameron Hospital, Sunday, August 18. Mrs. Phipps is the former Miss Betty Brantley.

RAINEY PLEDGES UNITY AS HE LOSES ELECTIION

Rainey and a large group of his supporters gathered at his home and listened attentively to the returns over the radio which were against him from the start, but the losing candidate declined to make any comment until about 10:30 p.m. His statement of concession, which was broadcast, also congratulated Jester on his victory and wished him success.

Rainey's statement, which he wrote out himself at his home, said:

"The election returns now clearly indicate that the people of Texas have chosen Mr. Beauford Jester of Corsicana to be our governor. I wish to express to him my congratulations upon his nomination to this high office, and upon the great opportunity which he now has to serve the people of Texas. Now that the people have expressed their choice we should all lay aside our personal differences and all work together for the best interests of Texas. I am happy to express to Mr. Jester my full and sincere co-operation as he becomes our leader.

"I should like also to express my profound thanks to the hundreds of thousands of Texas citizens who supported me and my program in this election. I shall always be grateful to the thousands of faithful and loyal friends all over the state who worked so hard in my behalf. The opportunity which this election has given me of meeting so many thousands of you face to face, of shaking hands with you and of working with you for a better Texas has been an inspiration and one of the choicest experiences of my life.

"We all love our state and we all want to see our people have the best that our state can afford. The wealth of our state is adequate to provide all our people with a just share of the good things of life. Let us all co-operate together in providing a better life for all our people.

"I am grateful to this radio network for making their fine facilities available to me for the purpose of bringing you this personal greeting."

He says in part: "I deeply regretted missing the Centennial for I am afraid I won't be around for the next one."

BEAUFORD JESTER WINS GOVERNOR NOMINATION

Texas' democratic nominee for governor Beauford H. Jester, prosperous small city lawyer and civic leader from Corsicana ,rested at his Corsicana home Sunday and observed as vote totals mounted in his favor, that Texans want no part in newfangled theories of government.

Before midnight Saturday night, Homer P. Rainey, Jester's runoff opponent in the second democratic primary, conceded that the state railroad commissioner had won the nomination, tantamount to election in this state. With 98 per cent of the votes counted, returns from the Texas Election Bureau showed that Rainey, former University of Texas president, had been smothered under a landslide count 683,605 to 355,888. A total of 65.76 per cent of the votes were for Jester. Out of 144 of 154 counties heard from early today, Rainey had carried only seven. CRIMINALS PREYING ON THE RURAL DISTRICTS

Criminals are preying upon the rural population of Texas at nearly double the rate of two and a half years ago, Director Homer Garrison of the Department of Public Safety declared today.

Garrison said rural crime increased 85.27 per cent from the first six months of 1944 to the first six months of 1946.

Biggest gain was in robbery, up 158 per cent. Another staggering gain was shown in burglary, up 121 per cent. Auto theft jumped 96 per cent; felony theft 61 per cent; murder and homicide 55 per cent; and rape 48 per cent.

During the same period crime increased 42 per cent in the cities. The overall gain for both rural and urban jurisdictions was 54.54 per cent.

Garrison said law enforcement officers are "holding their own against long odds," for arrests have increased in direct proportion to the gain in crime.

Convictions however, are lagging behind. The penitentiary system received 930 new prisoners in the first half of 1944; 862 in the first half of 1945; and 1221 in the first half of 1946, Garrison said. This represents an increase of 31 per cent from the 1944 to the 1946 period.

Sanitary Farm Dairies are owned by three Houston men, A. J. Reidel, president; C. H. Reidel, vice president, and A. E. Reidel, secetary-treasurer. The new milk supply for Cameron will come from Bryan where Sanitary Farm Dairies operate a milk plant and a large dairy farm.

His Farm Fields Are Factories

U. S. FARMERS have made our fields into factories.

We live better than people in other countries because our farmers get more out of the soil.

The steel industry takes pride in the way it has helped bring about this improvement in farm practice. Tools of steel—from the plowshare to the giant combine—have multiplied in number and increased vastly in quality.

Fifty years ago the typical farm in America used about 3 tons of steel. Today the figure is nearer 17½ tons.

That is a measure of the modernization of agriculture and an indication of the interdependence of steel and farming.

We no longer have separate "farm production problems" or "industrial production problems." We have but one set of problems for everybody.

If strikes, for instance, restrict the supply of farm implements and supplies through work stoppages, or make their cost prohibitive, *America is out of gear.*

Anything which tends in this direction is bad for the farmer—and finally for everybody. Farmers know it. Everybody else should know it.

Steel mills need all the scrap iron and steel they can get. The shortage is serious. Farmers can get extra dollars and help increase steel output by sending worn-out machinery, etc., on its way to the furnaces. AMERICAN IRON AND STEEL INSTITUTE, 350 Fifth Avenue, New York 1, N. Y.

The Institute has printed a booklet STEEL SERVES THE FARMER. *Write for a copy and it will be sent gladly.*

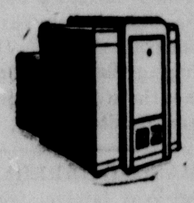
Plan Heating
AS PART OF HOUSE

When heating is planned as part of house and equipment installed when it is built or remodeled, it can be included as part of monthly payments. In this way the finest automatic natural gas heat costs so little more each month that even the builder of a modest cottage can afford it. Evidence of this fact is that many of the 2,200 homes being built here in the Southwest in one of the nation's largest single home building projects will be heated with central automatic gas furnaces. Below are two popular types:

Basement-type
GAS FURNACE



For large houses with basement or ground floor utility room is the forced-air furnace with filters. It sends cleaned warmed air balanced with right amount of moisture to every part of house. It is automatically controlled to maintain desired temperature.

Closet-type
GAS FURNACE

For the cottage where space is limited this closet-type furnace is ideal for installation in small space. It too, provides clean, warm air throughout the house. It is completely automatic. It is quiet, efficient and costs little to operate.

Vent to A Flue . . .

Remember, flues are necessary for venting the new gas heating equipment. Only when vented heat is used are wall sweating and stuffy air eliminated.

Blazing NEW Trails in Texas

Early wild life of Texas blazed the first known trails across the wide plains of the Lone Star State. The semi-yearly migrations from the snow-covered, wind-blown high plains, to the central and coastal prairie, established definite, regularly used trails.

Indians followed these trails as they hunted the animals for food. Their wandering, nomadic life developed these trails into lasting routes of communication and travel.

Later, ranchers drove thousands of cattle to market or to feeding grounds . . . . along these same, fixed trails, and settlements grew up around important crossroads. Farms and ranches became more numerous, early routes gradually became heavily travelled roads . . . and finally the concrete-ribbon highways of today.

The Texas Power & Light Company, chartered in 1912 by Texas men to serve Texas towns and communities, by 1915 began to blaze new trails to carry electric service to outlying rural and farm homes. Rural electric power lines, the trail-blazers of better living and better farming, were extended mile after mile outward along the highways and byways . . . opening still newer trailways to bring more efficient operation to farms and better living to rural and farm homes.

With far-sighted planning and steady progress, the Texas Power & Light Company expanded your rural electric service year by year, until, today, approximately 7,000 miles of its rural lines bring dependable, low-cost electric service to more than 44,000 farm and rural users.

SERVING More THAN 44,000 RURAL AND FARM FAMILIES!

Housing Shortage Is Making Teacher Hire More Difficult Here

Housing shortage is so critical in Cameron that employment of teachers has become very difficult, it was disclosed early Saturday by Superintendent W. T. Hanes.

A case in point, said the Superintendent, is a former army captain and wife who will teach here if they can find a place to live. They will be in Cameron Monday, said Mr. Hanes, and he hopes to locate a home for them.

Anyone who has living space to rent are urged to get in touch with Mr. Hanes. Teachers ca nuse apartments or furnished homes. Mr. Hanes said that good teachers have been lost to the faculty lately because they could find no place to live.

PETITION FILED TO SAVE BOY FROM PRISON

A petition was filed in District Court late Thursday by Emory B. Camp, attorney, in behalf of Alton Weems, 10-year-old boy, who was sentenced on August 19 to prison for participation in a home robbery.

Judge John Waason, to whom the petition is directed, was to take under advisement at 10 a.m. Friday whether a new trial and hearing would be granted. Mr. Camp, without fee, had intervened in the case in an effort to save the child.

The petition sets out five reasons why the attorney believes the case should be reopend. Issue is taken with the procedure of the court in disposing of the case. The proceedings were out of the ordinary and were being brought by the father of the child, Marshall Weems.

Alton Weems and another boy, 14 years old, and who was out on parole from the prison for children at Gatesville, were taken into custody by the sheriff following the robbery. Dr. A. E. Kruse and family were on vacation. The doctor had employed Alton Weems to feed and care for the dogs and Alton discovered a $100 bill and some silver in the home and is said to have told the 14-year-old boy who was involved. According to information, the Kruse home was not locked and Alton Weems had access to the house. When the 14 year old boy learned of what Alton had found, he is said to have threatened to "get the gang together and beat him up," if he did not get the money. As the story is related Alton went to the Kruse home, got the $100 bill and turned it over to his friend. According to information, Alton received only $15 of the money taken.

Mr. Camp, in his petition, sets out that Alton Weems, being only 10 years and two months of age, because of his extreme youth, was easily influenced and feared he might suffer serious bodily injury, and will show that "a person charged as his accomplice" did make these threats.

Mr. Camp says that the petitioner will further show that he did not have the advantage of counsel or attorney, or of any person informed as to the law and the rights of said juvenile and "that the petitioner was led to believe and did believe that it would not be necessary to secure the advice of an attorney.

The petition sets out that the defendants were not financially able to retain counsel and the court did not offer to furnish counsel, or to appoint an attorney to represent the petitioner.

In paragraph 2 the lawyer charges that no summons was issued by the court, reciting complaint, and requiring Mr. and Mrs. Weems to appear before the court with their son at a specified time and place; that on the contrary Mr. Weems was sent word to come to the court house and he did not know that there was any action involving his child; that after they had appeared they were informed a trial was about to take place; that the parents did not know they had a right to demand a jury and did not have time to make preparation for the defense of their boy. The petition also proposes to show that the boy was deprived of his rights to a trial by jury. In section 3 the attorney says that no evidence was submitted save that of the injured party. The petition then sets out complaint that the law was not complied with in meeting the requirements of juvenile statutes in the issuance of commitment papers, and ends by setting out that the laws require an attempt to be made to secure custody of the child and that such an offer was made to accept said custody.

Alton Weems, though never formally charged, was involved in another escapade some months ago.

Thank Voters for The Majority Given Shivers In Milam County Vote

We wish to express our thanks to the voters of Milam county for the splendid majority given Allan Shivers on Sathurday, August 24. Although he did not carry the county in July he received the necessary votes to give him a majority in the primary on last Saturday. We want to assure the people of our deep personal appreciation and to express gratification over his nomination and we feel the people of Texas will have a great lieutenant governor in Allan Shivers.

Emmett Streetman,
Ed. Giddens. (Adv.)

$248,000 IS ADDED TO TAX ROLLS IN CAMERON

Cameron's assessed valuation has been increased approximately $248,000 it was said here late Wednesday.

There was no statement from any official sources on how these increases were made, whether they represent many adjustments on small property renditions or whether some of the larger taxpayers were hiked.

It was estimated that the increased valuation would net the city some $5800. This and more will be needed as the city has had no funds on which to operate since April and is borrowing money at 6 per cent.

DISMUKES BACK FROM WALGREEN IN CHICAGO

Willis H. Dismukes has just returned from a business trip to Chicago where he visited the main offices of the Walgreen Drug Co. in connection with the establishment of the new Walgreen Agency Drug Store in Cameron. Dismukes recently returned to Cameron after serving two years in the navy. The new store should be ready for opening the early part of next year.

While in Chicage he completed arrangements for the construction and installation of the fixtures for the new store. Dismukes said, "I am convinced that the city of Cameron holds a great future for agressive retail merchandising and I want to bring the best to our town. I have contacted the Walgreen people for the many products and services that are made available to the Walgreen Agency Drug Stores. One of the first services I took advantage of was for the layout of the store. The entire store has been planned by the Construction Service Department of the Walgreen Agency Division. Full use has been made of all of the latest post-war planning. As a result, Cameron will have the finest super drug store to be found in any city of this size in the country.

"Milam Drug Company contract with the Walgreen firm makes it one of nearly 2,000 independently owned drug stores throughout all parts of the nation that handle the products of the famous Walgreen Co. and offer services similar to those provided by the company in their own retail stores. Our contract in no way interferes with the ownership or operation of our store. The Milam Drug Co. will be owned by myself and others and I will be in actual charge of the operations. I have been a resident of this town for five years and am interested in its progress."

Mr. Dismukes pointed out that much construction and installation work had to be completed before the store could be stocked and opened for business. Local contractors are being employed for this work. While in Chicago, Dismukes made arrangements with the Walgreen people to study their latest operation methods in the company owned store in San Antonio.

HOUSE JOINT RESOLUTION

proposing an Amendment to Article III of the Constitution of the State of Texas by the addition of a new Section to be known as Section 49-b, creating a Veteran's Land Board and establishing a Veteran's Land Fund; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 49-b which shall read as follows:

"Section 49-b. There is hereby created a Board to be known as the Veteran's Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Legislature shall provide by law for the issuance by said Board of not to exceed Twenty-five Million Dollars ($25,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veteran's Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas in such form, denominations, and upon such terms as shall be prescribed by law, provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum.

"In the sale of any such bonds a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent Universtiy Funds, and the Permanent Free School Funds; such bonds to be issued only as needed, in the opinion of the Veteran's Land Board under legislative authorization.

"The Veteran's Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this State (a) owned by the United States, or any governmental agency thereof; (b) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm or corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable, be paid for in cash, and shall be a part of the Veteran's Land Fund.

"The lands of the Veteran's Land Fund shall be sold by the State of Texas to Texas Veterans of the present war or wars, commonly known as World War II, in such quantities, and on such terms, and at such prices and such rates of interest, and under such rules and regulations as may be prescribed by law; provided, however, that any such lands remaining unsold at the expiration of eight (8) years after the effective date of this Amendment may be sold to anyone as shall be prescribed by law.

"All moneys received and which have been received and which have not been used for repurchase of land as provided herein by the Vetran's Land Board from the sale of lands and for interest on deferred payments shall be credited to the Veteran's Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, in like manner as shall be provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein, for a period of eight (8) years from the effective date of this Amendment; provided, however, that so much of such moneys as may be necessary to pay interest on the bonds herein provided for shall be set aside for that purpose. After eight (8) years from the effective date of this Amendment, all moneys received by the Veteran's Land Board from the sale of the lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law."

Sec. 1. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State of Texas on the first Thursday in November, 1946, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"FOR the Amendment to Article III of the Constitution of the State of Texas by adding Section 49-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II."

Those opposing said proposed Amendment shall write or have printed on their ballots the following words:

"AGAINST the Amendment to Article III of the Constitution of the State of Texas by adding Section 49-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation proclamation thereof.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State.

Sec. 4. The sum of Ten Thousand Dollars ($10,000.00) or so much there of as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of such publication and election.
